Media Screening Room Quick Start Guide

Equipment provided

• Crestron touch screen controller
• DVD/Blu-ray player
• Surround sound system
• HD Projector
• Fixed screen

Note: No computer is provided in the room. HDMI and VGA cables are connected to the control system for use with tablets, laptops, gaming systems, and other devices. Users of the media screening room are responsible for bringing their own devices and any necessary adapters.

System Startup

1. Connect any laptop or tablet you plan to use to the VGA or HDMI cables.
2. On the controller screen, touch the “Projector System Start Up” button.
3. Select your source (laptop, tablet, or DVD/Blu-ray) using the buttons
4. Touch the projector button to display from your source.
5. To switch to a different source, touch the corresponding button.
6. To control volume, use the up/down arrows on the touch screen.

System Shutdown

1. On the control screen, touch the “Exit” button.
2. Confirm shutdown.
3. Disconnect any devices you brought with you.
4. Check to make sure no DVD or Blu-ray disc is left in the machine.
